Robert C. Hickey Auditorium
Floor 11, R. Lee Clark Clinic
1515 Holcombe Boulevard
The University of Texas
MD Anderson Cancer Center
Houston, Texas

CALL FOR ABSTRACTS

Abstracts may be submitted for the Poster Session, and must be received no later than Friday, April 21, 2017. Submit to oraloncologyabstract@mdanderson.org

ORAL ONCOLOGY SYMPOSIUM

Goal

The goal of this Symposium is to improve recognition, which will lead to early detection and improve outcomes. Improved management of cancer-related symptoms can lead to improved treatment compliance, patient comfort and quality of life.

The Symposium will offer the healthcare provider an update on the multidisciplinary care of head and neck cancer patients and the sequelae of oncologic treatment. Multiple topics will be presented: fundamentals of major cancer and biologic therapies, head and neck surgery techniques and reconstruction, management of oral and infectious complications related to cancer therapies, pain and symptom management, nutritional and psychological counseling, speech and swallowing rehabilitation, and prosthetic rehabilitation of the head and neck cancer patient. Participants will have an opportunity to discuss the fundamentals of major therapies for head and neck cancer and the management of treatment-induced complications.

Educational Objectives

After attending this Symposium, participants should be able to:

- Identify fundamentals of major therapies for head and neck cancer (*Knowledge*)
- Evaluate head and neck cancer patients with a complete oral diagnostic and radiographic workup, resulting in early diagnosis and more appropriate treatment (*Knowledge, Competence, Performance, Patient Outcomes*)
- Discuss key issues with the patient's oncology team to ensure both local and systemic control of symptoms (*Knowledge, Competence, Performance, Patient Outcomes*)

Call for Abstracts

Deadline for abstract submissions is Friday, April 21, 2017.

Submit abstracts for poster presentation to: oraloncologyabstract@mdanderson.org

Oral Oncology, Maxillofacial Prosthetics, Oral Medicine, and Oral Cancer Research are acceptable. All abstract submitters should be prepared to present their work as a poster. Limit poster abstracts to one page, typed single-spaced on plain 8.5 x 11 inch paper. Organize the abstract into Purpose, Methods, Results, and Conclusions. All abbreviations or acronyms should be spelled out the first time they are used. Provide three to five keywords describing the nature and content of the abstract. Please include the name of the conference, title of your presentation, author's full name, highest degree, and institutional affiliation. Also please include author's telephone, fax, and email information. Registration for the conference must be submitted at the same

time as the abstract. Register at www.mdanderson.org/conferences.

The conference committee will select abstracts for poster presentations based on the scientific merit and the quality of the content. Abstracts that are not submitted in the format above will not be accepted. Abstracts will not be edited. The first author of the abstract will receive an email confirming that the abstract was received. Freestanding 4 ft. x 8 ft. display boards and pushpins will be provided for the poster session.

An award for the best two posters will be presented.

- Define and implement a "multidisciplinary approach" in the treatment of head and neck cancer patients to improve dental management in the oncology patient (*Knowledge, Competence, Performance, Patient Outcomes*)
- Identify and implement management strategies of primary oral sequela and secondary mucosal disorders of cancer therapy, which result in improved treatment, compliance, patient comfort and quality of life (*Knowledge, Competence, Performance, Patient Outcomes*)
- Summarize the phases of prosthetic rehabilitation of the head and neck cancer patient and recognize key elements of fabricating maxillofacial prostheses (*Knowledge*)
- Facilitate speech, swallowing, functional rehabilitation and nutritional counseling in head and neck cancer patients, resulting in improved functional outcomes (*Knowledge, Competence, Patient Outcomes*) and
- Evaluate and treat infectious complications in cancer patients and manage the pain and symptoms, improving patient comfort and quality of life (*Knowledge, Competence, Performance, Patient Outcomes*)

Target Audience

This conference should be of value to dentists, otolaryngologists, nurses, dental/otolaryngology fellows, residents, dental and medical staff.

Educational Methods

- Lectures
- Questions and Answers Session
- Case Presentations
- Panel Discussions
- Posters Session and Presentations

Evaluation

A course evaluation form will provide participants with the opportunity to comment on the value of the program content to their practice decisions, performance improvement activities, or possible impact on patient health status. Participants will also have the opportunity to comment on any perceived commercial bias in the presentations as well as to identify future educational topics.
