About our Postdoctoral Fellowships

How many fellowships does your program, The Cancer Prevention Research Training Program-CP RTP, offer?

Currently, we have four (4) fellowships:

1. The CP RTP **Postdoctoral** Fellowship in Cancer Prevention
2. The Halliburton Employees Foundation **Postdoctoral** Fellowship in Cancer Prevention
3. The Janice Davis Gordon Memorial **Postdoctoral** Fellowship in Colorectal Cancer Prevention
4. The CP RTP Summer Research Experience (**open to undergrads, grads, and health profession students**).

What agency funds your postdoctoral fellowships?

The CPRTP Postdoctoral Fellowship in Cancer Prevention is funded by a research training grant from the Cancer Prevention and Research Institute of Texas – CPRIT (Award# RP170259, Dr. Shine Chang, Principal Investigator).

The following two (2) fellowships are funded by donor-sponsored awards to MD Anderson Cancer Center:

- **The Halliburton Employees Foundation Postdoctoral Fellowship in Cancer Prevention**
- **The Janice Davis Gordon Memorial Postdoctoral Fellowship in Colorectal Cancer Prevention**

Isn't there another CPRIT-funded fellowship program at MD Anderson? What is the difference between the programs?

Yes. There are several CPRIT-funded programs within the University of Texas system. Although we all have working relationships, each of the three (3) groups listed below are operated independently.

- 1) The following two (2) programs are directed by [Khandan Keyomarsi, Ph.D.](#), Professor of Experimental Radiation Oncology and [Stephanie S. Watowich, Ph.D.](#), Professor of Immunology and managed by [Nancy Strange](#), Senior Administrative Assistant at MD Anderson Cancer Center.
 - [The CPRIT Graduate Scholar Program \(learn more\)](#) is open to **predoctoral** students in cancer-related fields.
 - [The CPRIT-CURE Summer Undergraduate Program \(learn more\)](#), a 10-week summer research program for **undergraduate students** interested in careers in cancer research.
- 2) **The Cancer Prevention Research Training Program (CPRTP) Postdoctoral Fellowship (our program)** is a CPRIT-funded **postdoctoral** fellowship. This program is directed by [Shine Chang, Ph.D.](#), Director of the CPRTP and Professor of Epidemiology and managed by [Kava Lewis](#), Education Coordinator at MD Anderson Cancer Center.

For more information or to apply, visit our webpage at www.CancerPreventionTraining.org, scroll down and select CPRTP Postdoctoral Fellowship from the menu.

- 3) [The CPRIT Predoctoral and Postdoctoral Fellowship program of the University of Texas Health Science Center \(read more\)](#) is managed by [Patricia Dolan Mullen, DrPH.](#)

[Return to top](#)

Eligibility Questions

Will you consider applicants for postdoc who are mid-career (who have graduated with a doctoral degree a few years ago and have been out and working for a while)?

Yes. Please indicate your intentions in the research and career statement.

Will you consider applications from those with a doctoral degree is not in a biomedical or behavioral science field?

Yes, as long as the applicant has an interest in cancer prevention. Postdoc applicants must make a viable application.

Will you consider applications from those whose doctoral degree is not a Ph.D., such as a J.D., PharmD, or M.D.?

Yes, as long as the applicant has an interest in cancer prevention. Postdoctoral applicants must make a viable application.

Our department within MD Anderson has a trainee who was an Adjunct Faculty at another institution and wants to return to MD Anderson as a postdoctoral fellow while waiting for his NCI K07 award. Can this trainee revert from Adjunct Faculty to postdoctoral fellow?

Yes. As long as the department supports it.

[Return to top](#)

Appointment Length

What is the maximum amount of time that a postdoctoral trainee can be appointed to the CPRTP?

The maximum is two years (2) and is renewed annually pending research progress and availability of funds.

I'm a full time MD Anderson employee and also a part-time doctoral student at UT School of Public Health. Am I still eligible to apply for the postdoctoral fellowship or would I have to reduce my time at MD ANDERSON CANCER CENTER to PT status?

Unfortunately, if you apply to our postdoctoral fellowship and get awarded, you will have to leave your employment status. Per UT MD Anderson Cancer Center policy, you cannot have both trainee position and full or part-time employment.

Application Process

How do I apply for a fellowship?

Visit www.CancerPreventionTraining.org and select **CP RTP Postdoctoral Fellowship in Cancer Prevention** from the fellowship list.

When are the deadlines?

The deadlines are listed on the web page of the **CP RTP Postdoctoral Fellowship in Cancer Prevention** webpage at www.CancerPreventionTraining.org.

How many phases make up the application process to the postdoctoral fellowship?

Application Process: The application process consists of two (2) phases:

Phase 1: Initial Application

- All items on the application checklist & coversheet must be emailed by or before the application deadline, including letters from prospective mentors and referees.
- Confirmation of receipt and application decision date will be e-mailed within 2 business days of submission.
- The application decision will be e-mailed once the review by the Advisory Committee is complete.
- Successful applicants are deemed **finalists** and will be invited to submit a research and career proposal.

Phase 2: Invitation to Submit Research and Career Proposal

- Finalists will be invited to submit a "Research and Career Proposal," that describes the research proposed, educational objectives, career development plan, a publication plan, and timeline. The Proposal should describe a rigorous plan that will successfully launch the finalist into an independent research career in cancer prevention and control.
- Proposals will be due on the date specified in the email (usually four weeks from date of notification).
- The proposal will be reviewed by the CP RTP Advisory Committee, external experts, and suggestions may be provided for its improvement.
- **Finalists are considered selected for the Program; however funding is contingent upon proposal approval by the Advisory Committee and Program Directors.**

If I have already accepted another federally funded fellowship at my university, can I also receive funding from a CP RTP fellowship?

No. Trainees are not allowed to receive any additional federal funding, from any other institution or mechanism during their fellowship. If you have any questions regarding additional concurrent funding received during your fellowship, you must immediately contact the CPRTP Director, Dr. Shine Chang or Co-Director, Dr. Carrie Cameron.

Do applicants who are currently employed at MD Anderson Cancer Center need to submit their GRE scores and transcripts with the application?

Yes.

Why do I need to submit my application to apply@cancerpreventiontraining.org and not an individual or mail/deliver the application to your office?

The apply@cancerpreventiontraining.org is our program's main e-mail address and serves as a central location. Your application and letters of support are less likely to be lost when sent to this e-mail address. Electronic submission ensures that your application is submitted and provides a receipt. If you were to hand deliver your application, or send your application in the U.S. mail, you will not have any record of sending your application, nor will we have record of receiving the application. This increases the likelihood of the application being lost. For your security, we recommend electronic submission only.

Do the transcripts need to be official copies, or can the applicant provide copies that they have?

Copies are allowed through the application phase. Once the trainee is appointed, we will need an official transcript.

GRE test scores, 5 years or older, are purged from the GRE system---Can I submit my application without GRE scores?

Yes. Please provide the reason why you are submitting your application without the GRE test scores on the application checklist and coversheet.

What happens if I submit my postdoctoral fellowship application before the deadline?

If the application is received more than 24 hours prior to the application deadline, our office will conduct and pre-review and contact you if any items are missing. Once your application has been received at the time of the application deadline, we will only notify you to inform you that your application was received.

What happens after I submit my application?

Applicants will receive confirmation of receipt of their documents within two (2) business days of the deadline. Applications are reviewed by our Advisory Committee. Applicants will receive a decision via e-mail on the date posted on the fellowship web page (usually within 4 weeks of the

application deadline). Successful applicants will be asked (via e-mail) to prepare and submit a full research and career proposal.

Application Format

What is the application format?

The following format applies to the *Research & Career Statement (Phase 1)* and all components in the *Research and Career Proposal (Phase 2 - by invitation only)*.

- **Margins:** 0.5 or 1 inch
- **Format:** Single-Spaced
- **Page-numbered format:** Lower center or Lower right corner of page.
- **Name & Current or Future Degree:** Top right corner of each page. *Example: Jane Doe, MD or John Doe, PhD Candidate*
- **Standard Paper Size:** 8.5 x 11
- **Font Color:** Black
- **Font Size:** 11 or 12 point font
- **Preferred Font Types:** Arial, Times New Roman, or Georgia

Why do I need to include my name and degree on the entire application?

This helps the CPRTP staff readily identify your document in the event that your application has pages that are out of order or misplaced.

Application Review

What criteria will be used by the Advisory Committee to review my application?

The Advisory Committee will use the following criteria when reviewing applications:

1. **Relevance:** Are the career and research interests of the applicant clearly in the area of cancer prevention? Is the proposed research project original and independent from the aims of a parent project? (Applications for research not relevant to cancer prevention, such as those focusing on cancer treatment, are not accepted.)
2. **Academic merit:** Does the applicant's past academic performance suggest future success? Do the letters of recommendation indicate the author's knowledge of the applicant's capabilities? Are there specific areas or skills that the applicant needs to strengthen to achieve career success?
3. **Promise and educational benefit to the applicant's career development:** Will the fellowship accelerate the applicant's career toward becoming an independent cancer prevention investigator? Does the applicant indicate strong commitment to a career in cancer prevention research? Does the applicant have the intellectual capabilities and work ethic to benefit from the fellowship? Does the applicant have a strong interest in applying novel quantitative methods?
4. Are the **sponsoring mentors** well-funded? Can they provide adequate staff and lab assistants, ensuring that the trainees can devote their time to scientific and career development? Do they describe a robust plan for collaborative research? Is there an integrated plan for mentoring? Given how many other trainees supervised, do mentors describe a plan to provide sufficient time for mentoring?

[Return to top](#)

Research and Career Proposal

NOTE: Successful applicants from Phase I are considered to be accepted to the fellowship program and will be invited to submit a Research and Career Proposal. Funding will not become available until the proposal is approved by the Advisory Committee.

What happens after I am invited to submit a full research and career proposal?

If you are selected after Phase I, you will receive a formal invitation (via email) to submit a full research and career proposal. The email will include a checklist, detailed instructions and a deadline. The proposal deadline is usually four weeks. At this point, you have been accepted into the program and now you just have to work with your mentors to describe the work you'll do together. MD Anderson faculty know how to help you design the proposals.

My e-mail says I have been accepted into the program, does this mean I will now start to receive a paycheck?

No. Applicants who are invited to submit a proposal are considered officially accepted into the program however, **your fellowship will not begin until three weeks after your research and career proposal is approved.**

How long does it take CPRTP to approve my proposal?

It depends. The proposal will be reviewed by a selected panel of subject matter experts. These experts will either raise questions regarding your proposal, or accept the proposal, as is. If there are questions, you will be notified via email and provided with a certain length of time to respond to the questions and/or submit proposal revisions. This process can take up to two months. Funding for your fellowship will not begin until the proposal is approved.

What happens after I submit my full proposal?

The CPRTP Advisory Committee and external subject matter experts will evaluate your research proposal and provide comments to CPRTP. You will receive a summary statement with verbatim evaluation comments attached to an e-mail and you will be asked to review the comments, discuss the evaluators' comments with your mentors, consult with your mentoring team and prepare a response of no more than 4 pages, single-spaced, detailing how you will address any issues raised in the summary statement.

Do you have to have a specific research question for this prior to starting the fellowship?

Our postdoc fellowships are only 2 years and the time goes FAST, so we want you to have the research questions pretty clear before your funding starts so you spend most of the time working on the research and not on figuring out what research to do.

[Return to top](#)

Will I need to re-write my proposal?

It will not be necessary to re-write the proposal itself unless you and your mentors believe this is the best strategy for you. Your response to the evaluation will be due back to the CPRTP on the date specified in the e-mail. **NOTE:** If we receive your response earlier, we will process it immediately, moving you towards appointment sooner. The Advisory Committee will consider your response and either recommend additional refinements or approve the proposal.

How many pages are required for the *research and career proposal* of the Postdoctoral fellowship application?

Please refer to the application instructions. **Note: The proposal cover page and references are NOT included in the page limit.**

When can I start my fellowship?

Your fellowship will begin on the date specified in your appointment letter. Usually this is up to 4 weeks after your Discover application is submitted and all employment paperwork has been approved by the Academic and Visa Administration (AVA). **However, research funds will not become available until the proposal is approved. In other words, you cannot submit requests to use your research support funds for tuition, books, travel, registration, supplies or any other supplies or services.**

I am currently an MD Anderson postdoctoral fellow in another department and I am concerned about a break in my appointment, can my fellowship start date be modified so there is no appointment gap?

Please contact the Education Coordinator.

General Questions

Is MD Anderson Cancer Center a degree granting institution?

The University of Texas MD Anderson Cancer Center is a part of the University of Texas system which is comprised of the School of Health Professions and MD Anderson Cancer Center UTHealth Graduate School of Biomedical Sciences.

[Return to top](#)

Letters of Support and Letters of Recommendation

What is the difference between a *Letter of Support* and a *Letter of Recommendation*?

A **Letter of Support** is provided by the prospective mentor(s) affirming that they are committed to supporting your proposed training.

A **Letter of Recommendation** is a letter from external recommenders (not including those provided by your mentors) and are preferably from a professor who has taught or supervised the applicant for at least one year. We require three letters from these external recommenders.

How are *Letters of Recommendation* and *Letters of Support* to be addressed and submitted?

1. All letters should be addressed to Dr. Shine Chang, Director, UT MD Anderson Cancer Center, Cancer Prevention Research Training Program.
2. All letters should be signed and on letterhead. **Electronic signatures are acceptable.**
3. **Original** *Letters of Recommendation* and *Letters of Support* **must** be emailed by the recommender or their support staff (not the applicant) directly to apply@cancerpreventiontraining.org.
4. **Descriptive subject line:** Since we often have multiple fellowships running concurrently, the subject line should include applicant name, fellowship and letter type. Example: *Jane Doe, Cancer Prevention Postdoc Fellowship - Letter of Recommendation.*
5. Letters submitted without these features may result in your application being considered incomplete and any incomplete applications will not be reviewed.

Why must the original *Letters of Recommendation* and *Letters of Support* be sent via e-mail to apply@cancerpreventiontraining.org and not via e-mail directly to Dr. Shine Chang?

Letters of Recommendation are to be sent to our central electronic mailbox, apply@cancerpreventiontraining.org, to prevent the document from getting lost or misfiled. If your Letter of Recommendation is sent directly to Dr. Chang and she is out of the office, we will be unable to confirm receipt in a timely manner and that could result in the denial of your application.

I am a postdoc applicant, how many letters of recommendation are required?

Postdocs must have three letters of recommendation.

[Return to top](#)

Is it better to have 3 letters from the same institution or 2 letters from the same institution and one letter from another institution but from a junior faculty (i.e., one of her PhD colleagues that now have a faculty position somewhere else)?

It doesn't matter if all the letters come from the same place as long as they are the strongest letters from people who know the applicant and know whether he/she is well suited for the opportunity he/she seeks. We suggest that the recommenders talk to each other (if possible) about what aspects they focus on so that they don't all sound the same, except for singing his/her praises.

How can I request a letter of recommendation from Dr. Chang or Dr. Cameron?

To request a letter of recommendation, visit our website at www.CancerPreventionTraining.org and download the letter of recommendation form from *Trainee Resources* in the left menu. Submit the completed form to apply@cancerpreventiontraining.org.

Immunizations

Why do I have to get an immunization?

The University of Texas MD Anderson Cancer Center department of Employee Health and Well-being requires all educational trainees (excluding GSBS GRA) to provide documentation of immunizations or serological proof of immunity.

How long will it take to submit my immunization forms?

It is highly recommended that you start getting your immunizations completed at the time of application, since immunizations can delay your start date or forfeit your fellowship. Keep in mind, depending on your health care benefits, you may be required to schedule an appointment with your family physician and you cannot assume your physician will be available when it comes time to submit your immunizations.

What immunizations are required?

All immunizations (MMR, Chicken Pox, TB Skin Test, Tdap) must be current. The TB Skin Test must be current within one year of the application submission date. See [What are the required documents and immunizations](#) below for more information.

How do I submit my immunizations?

Your immunizations will be submitted using CertifiedBackground.com, an online, secured screening service, which will collect, review, and manage immunization records for all trainee applicants. This platform will also allow you to track your progress online.

[Return to top](#)

How to do setup an account with Certified Background?

Login to your Discover account and select *Get Form* under the Immunization Compliance Report. Follow the instructions provided.

Is there a cost to use www.CertifiedBackground.com?

Yes, there is a \$30 processing fee for all users, including previous users such as University of Texas students. After set-up is complete, you will be prompted to enter your debit or credit card information for payment of the \$30 processing fee. Money orders are also accepted but will result in an additional \$10 fee and additional turn-around time in processing. **This processing fee is subject to change.**

Will I need to pay \$30 every time I apply for a fellowship at MD Anderson?

No. This is a one-time fee that allows the new user unlimited access to their health documents.

What are the required documents and immunizations?

As of October, 2014, the required documents are noted below. **PLEASE NOTE: This information below is subject to change, all applicants are responsible for logging on to their account to view the required documents for upload.**

1. **Demographics and Health Questionnaire form** (4 pages)
2. **Minor Consent Form** (if trainee is 18yrs or younger)
3. **Privacy Practice Form**
4. **Required immunization vaccination records:**

Measles, Mumps & Rubella (MMR):

- 2 vaccinations
- Positive antibody titers for all 3 components (lab reports required)

Varicella (Chicken Pox):

- 2 vaccinations
- Positive antibody titer (lab report required)
- Medical documentation of history of Chicken Pox

TB Skin Test:

- A negative PPD skin test AND Respiratory Query within 3 months of Certified Background's account initiation.
- If PPD skin test is Positive, submit positive PPD skin test AND a Negative Chest X-Ray dated on or after the positive PPD skin test result, but within the past 10 years AND Respiratory Query within 3 months of Certified Background's account initiation.

Tetanus, Diphtheria & Pertussis (Tdap):

- Must be documentation of a Tdap booster within the past 10 years

[Return to top](#)

Can I upload my required documents if they are double-sided?

No. Double sided documents will not be accepted. When uploading the required documents, make sure they are NOT double sided. You must upload each side separately. Make a copy of your double sided document and select the option on the copier to change the document from a double sided document, to a single sided document.

Can I upload these documents into Discover instead?

No. Follow the instructions provided within the Discover system to upload the required health documents into your Certified Background account.

I have submitted my immunization forms and I am going on vacation, but I will be back before the fellowship start date.

It is the applicant's responsibility to logon to Certified Background **daily** to check the status of their documents. In other words, do not upload documents and go on vacation. Documents may require modification, resubmission or they may be rejected. Applicants must monitor their status on a daily basis to ensure that the required immunization forms are received and approved.

Will CPRTP contact me if I am missing any immunization documents?

No. CPRTP will not have access to your account. It is your responsibility to check the status of your immunization documents. Any delay could forfeit your fellowship. To prevent delays in your appointment start date or the forfeiture of your fellowship, please keep in mind that CPRTP cannot submit your Recommendation for Educational Appointment until the "Compliant" document has been received by AVA (Academic and Visa Administration) a few weeks before your fellowship start date. Please abide by the immunization deadline provided by CPRTP.

Will the system send me an e-mail if I am missing documents?

No. Again, it is your responsibility to logon to your account and check the status of your documents daily.

I had a TB test performed in January of last year, do I have to get it updated?

Yes, your TB test must be current within one year of your appointment start date. *For example, if your appointment start date is January 7, 2014, your TB test must have been taken and read between January 7, 2013 and January 7, 2014.*

My immunizations are already listed on the transcript, do I still need to complete the immunization form?

Yes.

Is it necessary to get the Hepatitis B vaccine series?

If you will be handling blood and human fluids, then yes, you will need to have to take the series.

What happens when all of my immunization documents have been accepted and approved?

Once Certified Background confirms that all institutional immunization requirements have been met, a pdf document indicating a status of "Compliant" will be provided for uploading into the Discover system, if applicable.

How do I upload the immunization compliance report?

In your certified background account, go to the *Documents Center* and view the *To Do List Summary*. You should see your certificate of compliance report. Save this form to your pc or tablet and upload this form into your Discover account. If you need assistance see the FAQ below.

Who do I contact with questions about www.CertifiedBackground.com?

If you need assistance or have questions about your immunization requirements, please contact *Certified Profile* at 888-666-7788 or studentservices@certifiedprofile.com. A Student Support Representative will be available Monday-Thursday 8am-8pm, Friday 8am-6pm & Sunday 10am-6:30pm EST. **NOTE: CPRTP does not have access to your www.certifiedbackground.com account.**

I'm confused. The website is certified background, but I am contacting certified profile----is this the same company?

Yes. To access your account, per the instructions, go to [Certified Background.com](http://CertifiedBackground.com) NOT [certified profile.com](http://certifiedprofile.com). Certified Background and Certified Profile are the same company

What happens after I upload all of my immunization forms?

When you successfully upload the required immunization documents, you will be required to upload your certificate of completion. When you go into document center, you should see the to-do list summary. If you have any questions, please call the certified hotline, as I do not have access to your account.

Is the \$20 cost to certifiedbackground.com reimbursed by CPRTP or MD Anderson?

No.

[Return to top](#)

What if I am unable to pay the \$20 to www.CertifiedBackground.com?

If you are unable to pay the \$20 registration fee to certifiedbackground.com you will be unable to participate in the program.

When is the information from www.CertifiedBackground.com due?

The information on www.CertifiedBackground.com is also due by the deadline specified by the program. As a general rule of thumb and to prevent any delays in your appointment start date, *your immunization documents must be received and identified as Compliant by www.CertifiedBackground.com at least 10 days prior to the start date of your appointment.*

[Return to top](#)

Drug and Tobacco Screening

Who is required to complete a tobacco screening?

Effective, January 1, 2015, all educational appointees who are benefits-eligible (trainees appointed for longer than 4.5 months) from MD Anderson and are considered "covered" by this policy will be required to complete a tobacco screening.

Who is required to complete a drug screening?

Effective October 1, 2013, all educational appointees who are benefits-eligible from MD Anderson and are considered "covered" by this policy will be required to complete a drug test screening.

What happens if I fail the drug test?

Individuals who do not meet this contingency will not be eligible for educational appointment at MD Anderson, and the offer of appointment will be withdrawn. Educational appointees must have a signed Drug Test Consent & Release Form as well as a signed appointment letter on file before they are able to complete the drug screening.

How do I receive details about the drug screening?

Educational appointees living within the United States will receive an e-mail confirmation that lab test screening orders have been created; they will be required to choose a testing site near their mailing address to schedule an appointment for the drug test.

How long will I have to complete the drug test?

Screening orders will expire within five (5) days of the date on the lab test e-mail.

I am a postdoctoral fellow with a visa, how do I complete a drug test?

International appointees will be tested on site by MD Anderson Employee Health after AVA clearance is confirmed.

Visa Information

Do I need to already have a VISA to apply for the CPRTP postdoctoral fellowship?

No. You can apply without having it, however you cannot start your fellowship without a visa. For more information, please contact the VISA and Immigration Services Administration (VISA) Office at 713-792-1112 or by e-mail at visa@mdanderson.org.

I am currently on a J-1 visa and I want to apply for a Cancer Prevention Postdoctoral Fellowship. Can I apply?

Yes. The CPRTP Postdoctoral Fellowship is supported by a grant from the Cancer Prevention and Research Institute of Texas (CPRIT) and is open to all applicants regardless of citizenship status.

[Return to top](#)

Discover General Questions

What is Discover?

The Discover system is a web-based electronic records system used by MD Anderson Cancer Center to initiate the appointment hiring process for new research experience students and fellows here at MD Anderson.

I received an e-mail saying that a Discover account has been created for me. What do I do next?

Follow the instructions in the e-mail to logon to your Discover account via the [Discover system](#). You should have received a Discover ID and temporary password via e-mail. Use this to logon to your account.

Do I need to complete all of the documents listed in the Discover system?

Yes. Depending on your fellowship or program, the following documents may be required:

- CV

- English Proficiency Form
- Immunization Compliance Report (downloaded from certified profile)
- Notification of Personal and Criminal History Background Check Form
- Proof of Enrollment
- Proof of Selective Service Registration form (*you must complete this form AND upload proof of selective service, so you will upload 2 forms*)

When will the Discover forms need to be uploaded?

You will receive an e-mail from the program coordinator with the deadline.

How do I download a form from Discover?

From your Discover account, select *Get Form* and download. Most Discover forms are fillable forms and require a signature. Be sure to sign the document or have the mentor sign (if required) and upload the signed document into your Discover account. If you attempt to sign your form using a cursive font, your form will be rejected.

[Return to top](#)

Proof of Enrollment

What is proof of enrollment?

Proof of enrollment is a statement verifying that a student is enrolled in classes during a given term.

Who must provide proof of enrollment?

Proof of enrollment is required for High School, College and Graduate student titles. Dates of enrollment must cover the trainee's period appointment.

What documentation will AVA accept as confirmation of enrollment?

AVA will accept the following documents:

1. A signed letter on institution letterhead sent directly from the Registrar, Student Affairs Office, or the Dean's Office
2. Transcripts that confirm enrollment during the trainee's period of appointment. Must be an official copy and accompanied by a certified translation if in a language other than English.
***NOTE:** Official transcripts are submitted to show proof of enrollment. Official transcripts are not required during the application process.*
3. Verification of Enrollment Form (VOE)
4. National Student Clearinghouse Verification Certificate

What documents are NOT accepted by AVA?

The following are not accepted by AVA:

- Letter from faculty member or committee member
- Computer print-outs
- Admission letter

[Return to top](#)

Credential Evaluation

I am applying for a donor-funded postdoctoral fellowship which is open to foreign nationals holding visas. Your application checklist states that I must submit a credential evaluation if one of my degrees was obtained outside of the U.S. Do I need to submit this evaluation with the application or later after I am accepted?

Yes, all applicable items on the application checklist must be submitted at the time of application. This includes a credential evaluation if you obtained a degree outside of the United States. For more information, visit the MD Anderson information for GME (Graduate Medical Education) applicants page by searching within www.MDAnderson.org.

Will the CPRTP reimburse me for the fees associated with obtaining an evaluation?

Unfortunately, no. All expenses to obtain the evaluation will be the responsibility of the applicant.

Questions about Mentors

Do I need a mentor to apply?

Yes. If you are having problems locating a mentor, contact our office (preferably no less than 30 days of the application deadline) and our CPRTP directors will be able to suggest mentors based on your research interests and goals.

[Return to top](#)

What are the mentor selection requirements for the CP RTP Postdoctoral Fellowship applicant?

Applicants must apply with the support of faculty who have agreed to serve as mentors. **If you need help or are unable to identify suitable mentors, [contact the CP RTP office immediately for suggestions](#).** Applicants are responsible for contacting faculty directly for discussions about mutual interests and securing their support as mentors. **[Requests for faculty mentor suggestions need to be made, no later than 10 business days prior to the application deadline](#)**, although earlier is better.

- **Fellows are required to work with a minimum of two mentors of complementary research expertise.** Additional mentors may be included as appropriate.
- **Mentors must meet the following requirements:**
 - **At least one mentor** must be from the UT MD Anderson Cancer Center, Division of Cancer Prevention and Population Sciences (DCPPS), with faculty rank at the level of Assistant Professor or higher. DCPPS is comprised of five (5) departments: 1) Behavioral Science, 2) Health Disparities Research, 3) Clinical Cancer Prevention, 4) Epidemiology, and 5) Health Services Research.
 - **At least one mentor** must be conducting cancer prevention and control research.
 - **At least one mentor's** expertise must be based in quantitative methodology.
 - Mentors proposing to sponsor trainees at their home institution may be appointed at the following institutions: UT MD Anderson Cancer Center, Rice University, Texas A&M University, University of Houston, and UT Health (not School of Public Health).

Can I add mentors after submitting the application?

Yes.

Do my TWO minor advisors at UT school also need to be mentors on the fellowship, for a total of 4 mentors on the fellowship? (Only mentors submit the bio sketch?)

As long as they all meet the requirements listed above.

Do the mentors have to be from different departments or just different disciplines?

Mentors can be from the same department. The idea is that they offer you different perspectives, expertise, opportunities. **At least one mentor must be conducting cancer prevention research and at least one mentor must be from the MD Anderson DCPPS, and at least one mentor's research must be based in quantitative methodology.** We want you to benefit by the input and advice of multiple people. [See requirements above.](#)

Are instructors eligible to serve as primary mentors? No. The primary mentor must have a faculty appointment at the Assistant Professor level or higher.

Can we use the same letters of recommendation from a previous review?

Only if they're updated and the referee has given permission to use the (updated) letter for a new submission.

Can we submit new letters of recommendation during the second phase of the application reviews?

No. Letters of recommendation are not required for proposal submission (Phase 2), they are only required during Phase 1.

If mentors send their letter of support via e-mail, does it still need to be on official letterhead and signed?

Yes it must be on official letterhead and signed with an electronic signature.

[Return to top](#)

I am having difficulty locating potential mentors, many that I've contacted have not responded or have stated that they're not interested in a postdoc fellow at this time. What should I do?

Please e-mail the complete list of faculty members that you have contacted & the contact results to apply@cancerpreventiontraining.org and we will forward your information to our training program directors to assist. **Be sure to do this no less than 30 days prior to the application deadline.**

Do all mentors have to submit letters of support?

Yes. ALL Mentors must submit a letter of support, NIH Biosketch and Other Support.

Mentor's Biosketch and Other Support

The application asks for a Biosketch and Other Support. What is this and where do I find it?

The Biosketch and Other Support are two separate documents serving two separate purposes. The intent of a *Biosketch (or Biographical Sketch)* is to provide information on the credentials and qualifications of participants and must be in [this format](#) per the National Institutes of Health

(NIH). The *Other Support* document is intended to show any potential overlap in effort, funding, or research plans. Although sometimes similar, they are **not** interchangeable.

[Return to top](#)

Where do I find my mentor's other support?

Your selected mentor will provide this to you. Other Support includes all financial resources, whether Federal, non-Federal, commercial, or institutional, available in direct support of an individual's research endeavors, including but not limited to research grants, cooperative agreements, contracts, and/or institutional awards. Training awards, prizes, or gifts are not included. If the participant has no active or pending support, indicate "None."

If the support is provided under a consortium/contractual arrangement or is part of a multi-project award, indicate the project number, PD/PI, and source for the overall project, and provide all other information for the subproject only.

Is it mandatory that all mentors provide other support?

Yes. All mentors must provide other support. [See this example of other support](#) per the NIH. It is the applicant's responsibility to obtain this directly from **each mentor**.

[Return to top](#)

Salary, Research Support, Direct Deposit and Other Benefits

What is a STIPEND?

The word "Stipend" is the same as "Salary" or "Pay", within MD Anderson. These terms are synonymous and are commonly used interchangeably. According to MD Anderson's Payroll Department, whether you are an Employee or Student who gets paid a "Stipend", taxes will be withheld.

How much are fellows paid?

Postdoctoral fellowships are funded for **two years** and paid at the NIH NRSA stipend level.

How often are trainees paid?

Please consult Human Resources or the Payroll department page at inside.mdanderson.org to determine your actual pay dates. Typically, postdoctoral trainees are paid the 1st of each month, while classified employees and other trainees are paid the 5th and 20th of each month.

Will my first paycheck be direct deposited or a paper check?

If you turned in your direct deposit form to TAA/AVA during orientation, your first paycheck will be a paper check and it will be sent to the address you entered on your W4 tax form.

Can I view copies of my paycheck?

Copies of your paycheck stub are available several days before your pay date via the Peoplesoft/myHR system (*Username = Employee Identification Number Password = MD ANDERSON CANCER CENTER system password*).

How do I sign up for direct deposit?

Log in to your MD Anderson computer and navigate to inside.mdanderson.org and search for "myHR". Once you arrive to the myHR site, enter your EMPLOYEE ID and MD Anderson system password. Follow the menu to add direct deposit information (you must have your bank account number and bank routing number) and your W-4 tax information. If you do not have your bank account or routing number, you can try contacting your bank and they should be able to provide that information over the phone.

[Return to top](#)

I am currently a trainee, and I changed banks. Can I edit my banking information?

Yes. Once the payroll department has received your direct deposit form (or if you were able to set up your direct deposit prior to the direct deposit system going down), you can logon to the myHR Oracle Peoplesoft system to edit your banking information. From the main menu select "myHR from Employees" and select "Payroll and Compensation". However, it may take a few cycles before processing, so we recommend you contact myHR for the turnaround time.

Do trainees work full time or part-time?

All postdoctoral fellows will work full-time, 40 hours per week, 5 days a week.

Are taxes withheld from my paycheck?

Yes, however, the amount taxed depends on the allowances you designate on your W-4 form. At New Employee Orientation, you will be asked to complete a W-4. For assistance with tax withholding calculations, visit the online IRS Withholding Calculator via the internet.

Do trainees receive holiday pay?

Please consult your department timekeeper regarding holiday pay.

Are research and travel expenses covered by my fellowship?

- **Donor funded fellows** do not receive additional funds for support and must contact their mentors to cover these expenses.
- **The CPRTP Postdoc Fellows in Cancer Prevention** should refer to their CPRTP fellowship award letter or contact the CPRTP Education Coordinator.

Can I work out at the MD Anderson fitness center?

Yes. Postdoctoral fellows may work out at the fitness center, since they have benefits. Per the MD Anderson institutional policy:

The following employees and trainees are eligible for membership to the Fitness Center:

- Full-time and part-time classified employees
- Administrative Staff
- MD Anderson Faculty: Instructor, Assistant Professor, Associate Professor and Professor, also includes Visiting faculty and School of Health Profession faculty
- MD Anderson based full-time residents, fellows and research postdoctoral fellows (i.e. MD Anderson is the parent institution)
- Students of the School of Health Professions

The following are not eligible for membership to the Fitness Center:

- Contractors
- External temporary employees
- Faculty: Adjunct and Clinical Specialists
- Retirees
- Student and Trainees with appointments less than full-time or with terms of 6 months or less
- Students and Trainees who do not have a primary appointment at MD Anderson; For example, rotating and visiting students and trainees, etc.
- Volunteers

Signature Block

What is the recommended e-mail signature block for postdoctoral fellows?

Students may add a customized signature block via MS Outlook (from Top menu select File, Options, Mail, and Signatures) using the following format:

Jane Doe
Cancer Prevention Postdoctoral Fellow
Department of XXX
Cancer Prevention Research Training Program

Division of Cancer Prevention & Population Sciences
UT MD Anderson Cancer Center
Phone: 713-555-0000
Email: JaneDoe@MDAnderson.org

CV (Curriculum Vitae) or Biosketch (Biographical Sketch) Format

How should I format my Curriculum Vitae (CV)?

Postdoctoral fellows are encouraged to use [this NIH Biosketch format](#).

How do I list the CPRTP fellowship on my CV? Is there a particular format?

There are many ways trainees list their CPRTP fellowship on their CV. Although many variations are used, we recommend that trainees list their fellowship under **EDUCATION** and **HONORS AND AWARDS** as follows:

(YYYY-current) Cancer Prevention and Research Institute of Texas Fellow in Cancer Prevention Research (R25T CA057730 MD Anderson Education Program in Cancer Prevention, Dr. Shine Chang, Principal Investigator), The University of Texas MD Anderson Cancer Center, Houston, TX, Mentor: Dr. XXXX

Other fellows have used this more detailed format:

Role: Postdoctoral Research Fellow
Funding Agency: Cancer Prevention and Research Institute of Texas – CPRIT research training grant award, RP170259.
Institution/Program: The Cancer Prevention Research Training Program, University of Texas MD Anderson Cancer Center
Title: Postdoctoral Fellowship in Cancer Prevention Research
Project: *“Brief Mindfulness Intervention for Anxiety Management in Stereotactic Breast Biopsy Patients: Effects on Patient Self-Report, EEG Activity and Physiological Measures”*
Description: This award supports 2 years of research and training through the Cancer Prevention Research Training Program at MD Anderson. The proposed project will investigate the effect of brief guided mindfulness-meditation compared to guided breathing and standard care on patient anxiety during stereotactic breast biopsy.
Mentors: Lorenzo Cohen, Ph.D., Alejandro Chaoul, Ph.D., Peter Norton, Ph.D.

Grant Number: RP170259; Shine Chang, Ph.D., Principal Investigator
Term: 09/1/17-8/30/19

[Return to top](#)

Appointment Process

Once the awardee has fulfilled all AVA appointment procedures and completed all institutional documents, the CPRTP will submit paperwork to the home department (the department of the primary mentor) to initiate the fellowship appointment.

Will I have to go through Discover even though I am already a graduate research assistant at MD Anderson?

Existing MD Anderson students not subjected to a title change (meaning, you are already classified as a postdoctoral fellow), will not have to go through Discover.

MD Anderson student who are Graduate Research Assistants (GRAs) or any other title, must submit a new application in the Discover system.

AVA Check-In

My appointment letter says I must check-in with the Academic and Visa Administration, what does this entail?

The first day of your fellowship will begin with the AVA check-in. All students must report to the MD Anderson AVA orientation on their first day of employment (usually the fellowship start date). Refer to your appointment letter for the check-in date time and location. The appointment letter is available in the Discover system and must be signed, dated and uploaded (all pages) into your Discover account by the deadline specified.

What will I need to bring to AVA check-in?

1. Social Security Card: This is a MANDATORY document to establish employment authorization at MD Anderson and must be the original, not a photocopy.
2. Any document in List A or List B of the I-9 document list that establishes identity. The most common identification used to establish identity is a U.S. Passport, Permanent

Resident Card, State issued photo identification (I.D.) or Driver's License. This item must be original and unexpired. Certified copies are not accepted.

3. Checkbook with routing number, account number and mailing address. If you do not have your checkbook, be sure you know your routing, account and bank information in order to setup your direct deposit online in the MD Anderson myHR/PeopleSoft system.
4. \$15 on a debit or credit card for parking. This parking fee is for the entire day at the 1MC lot and you are not allowed to exit and re-enter during the day. You may park there until you sign a parking contract or determine your commute and parking routine during your fellowship.

[Return to top](#)

Parking

Where do I park and how much does it cost?

During your first day of employment, parking is available in the lot behind the 1MC building for \$15.00 payable with cash, credit or debit card. Students may sign a parking contract for the remainder of their fellowship. The 1st month's parking fees must be paid up front via personal check. The remaining monthly parking fees will be deducted from each paycheck. To avoid parking fees, students are encouraged to car pool or utilize public transportation. A parking contract will be provided during AVA-check in.

Dress Code

What is the dress code for CPRTP trainees?

MD Anderson dress code is business casual. Clothing does not need to be formal. Most thermostats within the buildings are set at 75 degrees, but will seem much cooler. Sweaters, pashminas or jackets can be kept at your desk in case you are cold while indoors. Consult your mentor regarding any additional dress code requirements set by the department, including casual Fridays (some departments allow jeans on Fridays, while others do not).

Acceptable attire

- Trousers/Slacks/Khakis
- Knee-Length Skirts
- Casual Dresses
- Polo or Button-down shirts/Blouses
- Blazers/Sweaters, Pashminas, Jackets

Unacceptable attire

- Shorts, Torn or Frayed Jeans

- T-shirts with slogans or advertising
- Flip-Flops, Hats
- Mini-skirts
- Revealing or bare midriff tops

[Return to top](#)

Trainee Funds, Travel, Expenses and Stipend

Are taxes withheld from my paycheck?

Yes, however, the amount taxed depends on the allowances you designate on your W-4 form. At New Employee Orientation, you will be asked to complete a W-4. For assistance with tax withholding calculations, visit the online IRS Withholding Calculator via the world wide web.

If I register for a conference and an optional concert or other type of entertainment is being offered for an additional fee, can the grant pay for the entertainment?

Please consult the CPRTP Education Coordinator. Generally, these types of fees are not covered by the grant.

Can a trainee be reimbursed for using local public transportation (i. e., the Metro Rail or Metro Buses) when traveling from the institution and back again for business purposes (attending a course / class / workshop / conference, etc. in Houston, TX)?

Metro Buses and Metro Rail are permissible; Taxis are NOT. Metro now has Q cards to pay for fares. These cards can be purchased at any grocery store. One way trips can be purchased via the kiosk on the metro rail platform. These kiosks also print receipts which can be used as proof of payment. If they choose to pay cash on the bus, they need to document the route taken (print map from Metro), and the amount each way.

Our department submitted a new recommendation form to your office or TAA for a trainee regarding a stipend adjustment. Will the applicant receive a new appointment revised letter to reflect their stipend adjustment?

No, TAA does not revise the appointment every time a personnel action, such as a change in compensation (including moving to "uncompensated" status) occurs within an appointment period. The TAA database and Peoplesoft will reflect the change.

One of our trainees was awarded a fellowship with a stipend increased. Do I have to submit an eJDUF?

No, only a signed recommendation form requesting a stipend adjustment is required.

How long does a trainee need to be appointed to be eligible for benefits?

Trainees appointed for 1.5 years or more are eligible for benefits.

Can students or trainee's vacation and sick leave be transferred to classified positions?

No, vacation and sick leave does not transfer to a classified position. However, for postdoctoral trainees, years as a postdoc are counted as years of service.

What is the policy to get the out-of-state tuition waived?

To be eligible for a tuition waiver, the "fellow" must be enrolled in a degree program and pursuing a degree related to the research performed.

What is the procedure when a trainee runs out of travel funds?

Please contact the CPRTP Education Coordinator.

How do I calculate per diem for travel?

Use the [US General Services Administration Website Per Diem Rates page](#) to calculate your per diem rate based on the state of travel.

Who do I contact to find out the balance of my research expenses?

Please contact the CPRTP Education Coordinator.

[Return to top](#)

Mandatory Meetings

How often will I meet with CPRTP Directors during my fellowship?

Ideally, postdoctoral fellows should meet bi-monthly with CPRTP directors. To schedule a meeting, please contact Kava Lewis at KLLewis2@mdanderson.org.

Will my mentors need to be present during my meetings?

No.

What do I need to bring to my meetings?

1. An [updated CV](#) with accomplishments & publications for the year highlighted.
2. All publications must include a PMID or NIHMSID number.
3. Your Individual Development Plan (IDP). Use [this website](#) as a reference for writing your IDP plans.

Trainee Presentations

What types of presentations must I give during my fellowship?

During the postdoctoral fellowship, trainees will acquire a repertoire of five (5) speaking skills appropriate to the various professional occasions they will encounter:

1. Scientific Elevator Speech (90 seconds)
2. 10-minute Research Presentation
3. 10-minute Practice Job talk (for diverse audience)
4. 10-minute TED style talk (suitable for educated public)
5. "Speaking up" (Asking questions and explaining scientific reasoning, in a professional environment)
6. 1-hour formal job talk

Type of Presentation Skill	Rationale/benefit to trainee	Method of learning	Program year acquired/delivered
1. Scientific elevator speech (90 seconds)	Think critically about own research; learn to summarize; develop poise in on-the-spot speaking	Existing Scientific Elevator Speech workshops	Year 1 (Summer), Audience: CP RTP Summer Research Experience Program
2. 10-min research presentation	Formally present research results to interdisciplinary audience	Through mentors, with assistance from program directors and the postdoc office as needed	Year 1 and Year 2 (Fall), Audience: Department Faculty Meeting
3. 10-min Practice Job talk	Formally tell an intriguing story about your research to diverse audience. The methodology should be explained in such a way that everyone can follow along.	Through mentors, with assistance from program directors and the postdoc office as needed	Year 1 and Year 2 (Winter), Audience: Department Faculty Meeting
4. 10-min TED style talk suitable for educated public	Describe research goals and activities to an educated lay audience; learn advocacy and persuasion skills	Workshop, based on activity develop and offered in Bio-behavioral course	Year 1 and Year 2 (Spring), Audience: Department Faculty Meeting
5. "Speaking up" (Asking questions and explaining scientific reasoning, in a professional environment)	Develop Advocacy & Inquiry skills; help gain inclusion into community of practice	Existing activity in required Bio-Behavioral and Topics courses	Throughout
6. 1-hour formal job talk	Present body of research and describe professional goals in an external setting	Through mentor, with assistance from program directors and the postdoc office as needed	Final year or on demand. To be determined.

--	--	--	--

What are the benefits of giving different types of presentations?

- Trainees will obtain exposure to one another, to colleagues outside their departments, and to research from various disciplines in cancer prevention.
- Trainee have the opportunity to include an invited talk on CV
- Trainees acquire job talk experience including feedback
- Robust attendance at events is stimulated

Will there be any other opportunities (outside of this schedule) for me to give a research presentation?

Sure! Trainees will be encouraged to register their 10-minute research presentations for the Trainee Research Day or GSBS Research Day, and to compete in the MDACC or GSBS Scientific Elevator Speech competition. Please check the MD Anderson institutional calendar to search for these events.

How are Trainee Presentations advertised?

Up to 5 e-mail announcements will be sent leading up to the event date.

How can I be added to the Trainee Presentation distribution list?

If you are a CPRTP trainee, you will automatically receive advertisements for any trainee presentations or events via e-mail. For all others, please send an e-mail request to apply@cancerpreventiontraining.org to be added to the CPRPT trainee presentation listserv.

Presentation details will be provided in the fellowship requirement memo (e-mail to finalists invited to submit a Research and Career Proposal during Phase 2 of the application process, and during CPRTP orientation).

Are my mentors required to attend?

Yes. If you have more than one mentor, please make sure at least one mentor is present.

My research isn't completed & I have no results, do I still need to give my presentation?

Yes. You do not need to wait until you have significant results. Present your *progress-to-date* during your presentation.

How often do I need to attend the trainee presentations?

Since attendance at all CPRTP trainee presentations is a part of your training, you need at least 70% attendance during your fellowship. Contact Kava Lewis at KLLewis2@mdanderson.org with the reason you cannot attend.

Is there anything I need to include in my presentation?

Yes. You must include two (2) [Funding Acknowledgements](#) (below) and at least one slide discussing issues of [Responsible Conduct of Research \(RCR\)](#) relevant to your research project. (below).

[Return to top](#)

Acknowledgement of Support

How do I acknowledge my grant funding in my presentation, poster, manuscript, etc?

The following are examples of acknowledgement wording for posters, manuscripts and other presentations.

CP RTP Postdoctoral Fellowship Acknowledgement (*funded by the Cancer Prevention & Research Institute of Texas grant award, must include both the CPRIT grant and the MD Anderson Cancer Center's core grant*):

- *(Insert your name here) and the research were supported in part, by the CPRIT Cancer Prevention and Research Institute of Texas grant (Award ID RP170259, Shine Chang, Ph.D., Principal Investigator), and by the MD Anderson's Cancer Center Support Grant (CA016672, Ron DePinho, M.D., Principal Investigator) funded by the National Cancer Institute.*

Donor-Funded: Halliburton Postdoctoral Acknowledgement:

- *This research (or project) was supported in part by a fellowship for (insert your name here) supported by a grant from The University of Texas MD Anderson Cancer Center, Halliburton Employees Fellowship in Cancer Prevention Fund.*

Gordon Postdoctoral Acknowledgement:

- *This research (or project) was supported in part by a fellowship for (insert your name here) supported by a grant from The University of Texas MD Anderson Cancer Center, Janice Davis Gordon Memorial Postdoctoral Fellowship in Colorectal Cancer Prevention.*

If YOU are supported by a grant through the Cancer Prevention Research Training Program (CPRTP) and YOUR RESEARCH is supported by a DIFFERENT grant (other than a grant through CPRTP), use this following acknowledgement:

- *(Insert your name here) was supported by a cancer prevention fellowship through The University of Texas MD Anderson Cancer Center, Cancer Prevention Research Training Program, funded by*

*the National Cancer Institute grant (enter grant number for your fellowship-see above examples),
Shine Chang, Ph.D., Principle Investigator.*

- *This research was supported by (insert funding institution) for (insert your name here) through (insert grant or funding mechanism).*

Responsible Conduct of Research (RCR)

What is Responsible Conduct of Research (RCR)?

Responsible Conduct of Research (RCR) is defined by the NIH as "the practice of scientific investigation with integrity." It involves the awareness and application of established professional norms and ethical principles in the performance of all activities related to scientific research.

Why is RCR required?

NIH policy requires participation in and successful completion of instruction in **Responsible Conduct of Research (RCR)** by individuals supported by any NIH training/research education/fellowship/career award (NOT-OD-10-019).

What are basic principles and best practices of RCR?

According to the NIH, the following principles are based on several key concepts about responsible conduct of research and best practices that have evolved over the past two decades' experiences:

1. Responsible conduct of research is an essential component of research training. Therefore, instruction in responsible conduct of research is an integral part of all research training programs, and its evaluation will impact funding decisions.
2. Active involvement in the issues of responsible conduct of research should occur throughout a scientist's career. Instruction in responsible conduct of research should therefore be appropriate to the career stage of the individuals receiving training.
3. Individuals supported by individual funding opportunities such as fellowships and career development awards are encouraged to assume individual and personal responsibility for their instruction in responsible conduct of research.
4. Research faculty of the institution should participate in instruction in responsible conduct of research in ways that allow them to serve as effective role models for their trainees, fellows, and scholars.
5. Instruction should include face-to-face discussions by course participants and faculty; i.e., on-line instruction may be a component of instruction in responsible conduct of research but is not sufficient to meet the NIH requirement for such instruction, except in special or unusual circumstances.
6. Instruction in responsible conduct of research must be carefully evaluated in all NIH grant applications for which it is a required component.

[Return to top](#)

Where can I find detailed information about research integrity and research misconduct?

NIH has information available on their [Grants Policy web page](#).

Where can I find examples of Responsible Conduct of Research (RCR)?

Read more about [Responsible Conduct of Research](#) .

Does MD ANDERSON CANCER CENTER host RCR seminars?

The Postdoctoral Association at MD ANDERSON CANCER CENTER has designed the RCR Seminar Series to fulfill this requirement for postdoctoral fellows and graduate students by covering several important topics. The seminar series takes place on every Wednesday, from Noon to 1pm. Go to www.MDAnderson.org and search for *RCR Seminar Series Schedule*.

Publications

What format should I list my publication?

Typically, publications should be in the following basic format: Authors (**with your name in bold**), Article Title, *Journal Name*, Year, Issue (Number): First Page - Last Page. PMID or NIHMSID

An example of a citation of CPRTP Director and PI, Dr. Shine Chang:

Niu J, Huang YJ, Wei S, Liu Z, Wang LE, **Chang S**, Chamberlain RM, El-Naggar AK, Sturgis EM, Wei Q. Association between a functional polymorphism (-1195T>C) in the IGF1R promoter and head and neck cancer risk. *Head Neck* 33(5):650-60, 5/2011. e-Pub 10/2010. PMID: PMC3023825.

What is a PMID?

A PMID is a PubMed Central Identifier or reference number which is a unique number assigned to a work that is posted to [PubMed Central](#), a free digital archive of biomedical and life sciences journal literature at the [U.S. National Institutes of Health \(NIH\)](#) developed and managed by NIH's National Center for Biotechnology Information (NCBI) in the National Library of Medicine (NLM). All works applicable under the NIH Public Access Policy are posted to [PubMed Central](#).

[Return to top](#)

What is an NIHMSID?

An NIHMSID is a NIH Manuscript Submission Reference Number in lieu of a PMCID at the end of a full citation. The NIHMSID is a *temporary substitute* for a PMCID when using either [Submission Methods C or D](#) under the NIH Public Access Policy. It is intended to be used *only* in cases where an awardee needs to cite a paper soon after its acceptance by a journal, when there is not enough time to complete every step of the NIH manuscript submission process.

Why is a PMCID required and important?

A PMCID is required for demonstration of compliance with the NIH Public Access Policy for applicable works, three months post publication and beyond, noted in NIH applications, proposals and progress reports. If you are writing an NIH application, proposal, or progress report and you cite an article that is:

1. Authored or Co-authored by you, or, arose from your NIH award, and
2. Is covered by the NIH Public Access Policy you must include the PubMed Central reference number (PMCID) on those articles.

What is the difference between a PMCID and PMID?

PubMed Central is an index of full-text papers, while PubMed is an index of abstracts. The PMCID links to full-text papers in PubMed Central, while the PMID links to abstracts in PubMed. PMIDs have nothing to do with the NIH Public Access Policy.

How do you locate a PMCID?

The PMCID is posted in PubMed as soon as an article has been successfully processed by PMC, which usually occurs around the time of publication. For detailed information on how to locate a PMCID and how to cite, visit the [Locating the PMCID page of the NIH Public Access Policy page](#).

"Topics in Cancer Prevention" Course

How many credit hours are Topics in Cancer Prevention?

2.0 Elective credit hours

What is the course number for Topics in Cancer Prevention?

Generally, the GSBS course number listing is GS21 1621. *For more information about this course visit <https://gsbs.uth.edu> and perform a keyword search of the course name.*

What is the cross listed course number for UT School of Public Health?

Generally, the UT School of Public Health cross listed course number is usually PH 1498 100, but you will need to confirm this with UTSPH.

When is the Topics course offered?

Topics in Cancer Prevention will be offered the Spring semester of every odd-numbered ending year. (Spring 2015, Spring 2017, Spring 2019, etc.) Topics in Cancer Prevention will alternate with **Bio-Behavioral Research Methods in Cancer Prevention and Addiction course** which will be offered the Spring semester of every even-ending year (Spring 2014, Spring 2016, Spring 2018, etc.)

What time and day of the week will *Topics in Cancer Prevention* take place?

Topics will begin every Friday during the spring semester from 10am to Noon at different locations throughout MD Anderson. All enrollees will receive a syllabus via e-mail from CP RTP.

When can I receive or view a copy of the syllabus?

The syllabus will be emailed one to two weeks prior to the 1st day of class. After the 1st day of class, the syllabus (including any revisions) and all course materials will be posted to our Box.com account to registered students ONLY.

How long is the class?

Two hours.

What time of the year is Topics usually offered?

The Spring semester of every odd-ending year. (Spring 2015, Spring 2017, Spring 2019, etc.) Announcements are sent via e-mail and posted on our [social media sites](#).

Is there a prerequisite?

No

Does it require instructor approval?

No

What are the objectives of Topics in Cancer Prevention?

1. Students will describe conceptual models used for cancer prevention research and practice.
2. Students will identify the principal approaches used in areas of promising research in cancer prevention, both topical and methodological.
3. Students will give examples of applications of cancer prevention research and practice.
4. Students will discuss the research and implementation challenges for future cancer prevention and control activities.

Are CPRTP fellows required to take the *Topics in Cancer Prevention* course?

Yes. Topics in Cancer Prevention is a required course. As of 2014, CPRTP will offer one **required course** per year during the Spring semester. Each CPRTP trainee must enroll in one course during the spring semesters in which they are appointed as CPRTP fellows. Thus, fellows who spend two years in the program will be taking only one semester of Topics and one semester or Bio-Behavioral. The **recommended** courses are available to assist trainees in developing their educational curriculum. In addition, please check your Fellowship Requirement Memo submitted with your CPRTP fellowship application. Visit our website for a [complete list of required and recommended courses](#).

How do I register for Topics in Cancer Prevention?

See [How to Register for Courses](#) below.

"Bio-Behavioral Research Methods in Cancer Prevention and Addiction" Course

When is Bio-Behavioral Research Methods in Cancer Prevention and Addiction offered?

Bio-Behavioral Research Methods in Cancer Prevention and Addiction course is offered the Spring semester of every even-numbered ending year (Spring 2014, Spring 2016, Spring 2018, etc.) through the University of Texas Graduate School of Biomedical Sciences (UTGSBS). *For more information about this course visit <https://gsbs.utth.edu> and perform a keyword search of the course name.*

How many credit hours?

2.0 Elective credit hours

Is there a prerequisite?

No

Does it require instructor approval?

No.

What are the objectives of Bio-Behavioral Research Methods in Cancer Prevention and Addiction?

1. Define Bio-behavioral research and identify issues that help and hinder success conducting such research
2. Indicate the areas of intersection between behavioral and basic science research
3. Provide examples of successful applications of Bio-behavioral Research Methods in Cancer Prevention and Addiction
4. Suggest health conditions and research topics in Health Science that might benefit from Bio-behavioral research approaches

Is Bio-Behavioral Research Methods in Cancer Prevention and Addiction required or recommended?

Bio-Behavioral is a required course. As of 2014, CP RTP will offer one **required course** per year during the Spring semester. Each CP RTP trainee must enroll in one course during the spring semesters in which they are appointed as CP RTP fellows. Thus, fellows who spend two years in the program will be taking only one semester of Topics and one semester or Bio-Behavioral. The **recommended** courses are available to assist trainees in developing their educational curriculum. In addition, please check your Fellowship Requirement Memo submitted with your CP RTP fellowship application. Visit our website for a [complete list of required and recommended courses](#).

How do I register for Bio-Behavioral Research Methods in Cancer Prevention and Addiction?

See How to Register for Courses below.

[Return to top](#)

How to Register for Courses

(All information below relates to BOTH courses)

How do I register for Topics in Cancer Prevention or Bio-Behavioral Research Methods in Cancer Prevention and Addiction course?

Undergraduate students OR Postdoctoral students (who want to receive credit):

- Visit the <https://www.uth.edu/registrar/forms.htm> to complete the **GSBS Employee Enrollment form** and submit all documentation listed at the top of this document (*Residency Questionnaire, Transcript, Immunizations, Criminal Background Check Form*) to the address provided (in-person) along with the application fee. **Be sure to have a member of the CPRTP staff sign the form and provide the course information.**

Undergraduate students OR Postdoctoral students (who do NOT want to receive credit):

- Visit the <https://www.uth.edu/registrar/forms.htm> to complete the **GSBS Employee Audit form** (*you will register as an MD Anderson employee and you must have an active MD Anderson Employee ID to complete this form*)
- OR
- If you are a UT School of Public Health student and you do not want to receive credit, complete the SPH Non-Degree Audit Only Enrollment Form. Follow the instructions at the top of the form and submit the additional required documentation listed. **NOTE: You must have a member of the CPRTP staff sign the form and provide the course information.**

UT Health Graduate Students: who wish to enroll at one of the institutions listed on UT registrars page, must click the link of the institution and follow the instructions provided for enrollment. Be sure to obtain the UT cross listed course number from CPRTP.

NOTE: Do not apply to GSBS. Do not attempt to register online.

If I audit the course, will I receive credit?

No. Students auditing courses will receive a grade of “AD” which may not be changed at a later date to a letter grade for credit.

What is the difference between the *SPH Audit Only Enrollment Form* and the *GSBS Employee Audit Form*?

The ***GSBS Employee Enrollment Audit Form*** is for GSBS employees which also includes UT faculty, employees and fellows. There is an application fee to use this form (see top of the form). The ***School of Public Health Non-Degree Audit Only Enrollment Form*** is for regular, non-UT

students and includes an application fee (see top of the form). Please go to the GSBS website to view the complete list of fees for auditing one course.

Will CPRTP cover fees for auditing a course?

CPRTP will cover fees only for trainees funded by an R25T grant. Donor-funded fellows (Gordon or Halliburton) must consult their mentor for any course fees.

What is the course listing for each class?

The course listing is noted for current classes only.

See above for [Topics in Cancer Prevention](#)

See above for [Bio-behavioral Research Methods in Cancer Prevention and Addiction](#)

What is the cost for each course?

The application fee listed on the enrollment form is non-refundable and payable at the time of registration. Current Tuition and Fees are available on the UT Office of the Registrar website (visit <https://www.uth.edu>).

Will CPRTP pay my application fee and tuition?

- CPRTP will not cover application fees for any student.
- CPRTP will cover **tuition only** for trainees funded by an R25T grant. You will not need to pay your tuition up front. UT GSBS will send CPRTP a bill for your tuition, as this is covered by the grant.
- CPRTP will not pay for your tuition if you are a **Donor-Funded (Halliburton, Gordon, etc.)** fellow, you will need to contact your mentor to see if he/she has funds available to cover your tuition and fees.

I am a Donor-Funded Postdoctoral fellow, will CPRTP pay or reimburse me for my required courses?

No. Please consult your mentor to see if funds are available within your department.

Where can I obtain a sponsorship form?

- **CPRTP Postdoc fellows:** Your tuition and fees for the GSBS course can be reimbursed or billed. In order to get your fees billed, Kava Lewis, must submit a sponsorship form to the UT Registrar's office **one month prior** to the start of the course. Contact Kava Lewis at KLLewis2@mdanderson.org to begin the sponsorship process and provide her with your **Student ID#**. **Late registration and sponsorship form submissions are subject to a late fee. If you are past the one month window**, you will be responsible for any late fees or insurance, as all registrants should decline insurance.

- **Donor-Funded fellows:** CPRTP is **not** responsible for paying your tuition or fees. You will need to contact your mentor to see if funds are available within your department for billing or reimbursement.

Can I pay my application and tuition fees online?

- **UT and GSBS students** can pay the application fee online and check the status of their application via the **myUTH system**. If you do not have myUTH logon, visit www.uth.edu/ and perform a keyword search for myUTH logon and complete the myUTH account request form.
- For additional instructions visit www.uth.edu and keyword search "Registrar FAQs".
- **NOTE: The UTLINK Faculty/Designee Authorization is discontinued. Use the myUTH form above. All roster review and grade entry by faculty and/or designees should now be done using myUTH.**
- Other students can contact the Registrar's Office at registrar@uth.tmc.edu.

I'm not a GSBS student, do I need to apply for admission to the school?

No. See How to Register for Courses above.

The registration form is approval of my "Immediate Supervisor", who is this?

CPRTP Directors, Drs. Shine Chang or Carrie Cameron.

Is there a final exam at the end of the course?

No. If you register for credit, the course is graded on a Pass/Fail system and no final exam is required. Make sure you register for the class as AUDIT if you do not need credit for this class. This prevents anyone who doesn't need this class as credit from having an F in their record. If you do require credit, you will need to show up for **every class** to pass the course.

Since this is during lunch hours, can we bring a lunch?

Students are welcome to eat lunch during class.

What happens if I miss a class?

You must make up every missed class or you will receive an "I" for incomplete.

How do I make up missed classes?

View the presentation of the missed class in Box.com, create 3 questions related to the missed class, answer your 3 questions, submit your Q & A via e-mail to Lesley Kuntz at LKuntz@mdanderson.org.

Is there a maximum amount of classes that are allowed to be missed?

No. As long as you submit 3 questions with answers for every missed course, you are allowed to make them up.

Can I bring a laptop to take notes?

We encourage students to use their laptops, notebooks iPads or any electronic tablet, as long as it's being used for course work during class time.

Why do I need to give you my contact information?

We ask for your contact information so we can reach you in the case of an emergency, to let you know if a class has been cancelled, or any other situation where it is crucial to get in touch with you. Your information is kept confidential.

I am ill and cannot make it to today's class. Who do I contact?

Contact Lesley Kuntz at (713) 745-2495 or LKuntz@mdanderson.org.

Where can I obtain a copy of the syllabus, PowerPoint slides from a class that I missed or view videos from past courses?

All class materials are posted on Box.com, including syllabus, handouts, videos and presentation slides. If you have registered for a Topics or Bio-Behavioral course, we will grant you access to the Box.com account. You will receive instructions on the first day of class.

I am unable to register for courses this semester, but may be interested next year, how can I receive notification about courses?

If you are a current CPRTP fellow, you will receive an e-mail regarding course offerings, otherwise, we recommend you connect with our [CPRTP social media sites using the links on our website](#).

Who do I contact with Box.com problems or general questions about courses?

Contact Dr. Carrie Cameron at CCameron@manderson.org or Lesley Kuntz at LKuntz@mdanderson.org.

Trainee Forum

What is a Trainee Forum?

The Trainee Forum was created to help all Cancer Prevention Research Training Program trainees benefit from others' experiences. Everyone is so busy throughout the year that we may fail to take time we need to grow. It is a time when all can get together and see what we are all working on. It is also an opportunity to meet other trainees in Cancer Prevention.

When and where do Trainee Forums take place?

Trainee Forums are usually held twice a year at various conference rooms throughout MD Anderson Cancer Center. Formal announcements are sent to the Division of Cancer Prevention and Population Sciences and all trainees two weeks prior to the forum. All fellows are welcome to attend.

Is attendance required at Trainee Forum?

Yes.

Cancer Prevention and Control Grand Rounds

What are Cancer Prevention and Control Grand Rounds?

To highlight the work of leaders in cancer prevention and control, the Cancer Prevention and Control Grand Rounds seminar series was formed in 2005 and its purpose is to inform the scientific and clinical faculty, trainees and staff at MD Anderson of emerging areas of research, new methods used in the field, and recent findings that inform the work conducted here.

Is Cancer Prevention and Control Grand Rounds accredited?

The Cancer Prevention and Control Grand Rounds are accredited for continuing medical education, which is an attractive feature to our clinical audience. However, the seminars are open to the public as well and are widely advertised throughout the Texas Medical Center.

How do I get credit for attending?

The Cancer Prevention and Control Grand Rounds are accredited for continuing medical education, which is an attractive feature to our clinical audience. However, the seminars are open to the public as well and are widely advertised throughout the Texas Medical Center. When you arrive, you will be asked to show your I.D. badge to be scanned. That information is uploaded and reported to CME where you will receive credit for attending.

What if I have forgotten my MD ANDERSON CANCER CENTER employee identification badge or I'm not a student, faculty or staff of MD Anderson?

If you have forgotten your ID badge, please provide your employee ID number to the CPGR attendant. The attendant will key in your employee number to record your attendance and that information will be uploaded to CME.

What if I'm not a student, faculty or staff of MD ANDERSON CANCER CENTER?

We have manual sign in sheets available for those who are visiting from another institution or who are guests not affiliated with any institution outside of MD ANDERSON CANCER CENTER.

When and where do Cancer Prevention and Control Grand Rounds take place?

The schedule for Cancer Prevention and Control Grand Rounds follows an academic calendar (September through June) and typically features on average 2-4 speakers each month. The lectures are held at different locations on the MD Anderson campus on Fridays at Noon for one hour. They are preceded by a series of scheduled meetings with faculty and other individuals during the morning.

[Return to top](#)

When and where do Cancer Prevention and Control Grand Rounds Speaker Meetings take place?

Trainees are invited to bring their lunch for an informal meeting with the visiting CPGR speaker (speakers outside of MD Anderson) from 1:15 to 2:30pm. Trainees are invited to attend this trainee lunch via email. The trainee lunches take place at various locations throughout the institution.

Where can I obtain a copy of the Cancer Prevention and Control Grand Rounds schedule?

The schedule can be found on the Division of Cancer Prevention & Population Sciences home page: [Cancer Prevention Grand Rounds](#) (MD ANDERSON CANCER CENTER intranet only).

What if I miss a Cancer Prevention and Control Grand Rounds presentation?

You can view a list of [past Cancer Prevention Grand Rounds presentations](#). Recordings are currently available for the previous 9 months only. You will not be able to see the speaker, but you will be able to view the slide presentation as well as hear audio. All presentations are in Adobe Flash format.

[Return to top](#)

Where can I find archived Cancer Prevention Grand Rounds presentations (more than 9 months old)?

View [Archived Cancer Prevention Grand Round](#) presentations.

I am an MD Anderson trainee and would like to host a CPCGR Speaker Meeting, who do I contact?

Contact Lesley Kuntz at LKuntz@mdanderson.org.

My department would like to nominate a CPCGR speaker. Who do I contact?

Jennifer Castillo at JMCastillo1@mdanderson.org or 832-750-1629.

Manuscript / Publication Info

I want to submit a manuscript for publication. What are the guidelines?

Regardless of your authorship position, we require that you complete the [paper proposal](#) for our approval before submitting a manuscript for publication. Your compliance will ensure the continued funding of our NCI training and education awards.

How do I acknowledge the funding of my training grant in my manuscript?

See Acknowledgement of Support above.

Trainee Exit Process

If my appointment ends early (because I'm offered a job or accept another opportunity), what is the exit procedure?

You must notify the CPRTP directors immediately via email and carbon copy the education coordinators: Kava Lewis. Notification must come in the form of a formal resignation letter that must include your official departure date. This letter is to be typed, signed and dated.

[Return to top](#)

Who should I send my resignation letter to?

You must send your resignation letter to the following:

1. All Mentors and their support staff,
2. Your Department Chair and their support staff,
3. Drs. Shine Chang and Carrie Cameron, CPRTP Directors and their support staff,
4. Zera Harden, Program Manager of the Academic and Visa Administration (AVA),
5. Kava Lewis, CPRTP Education Coordinator
6. Stacey K. Martin, CPRTP Operations Manager
7. Lesley Kuntz, CPRTP Administrative Assistant

[Return to top](#)

Are there any forms that must be completed?

Yes you must complete two sets of forms from AVA and CPRTP:

1. Contact AVA to receive your check-out documents.
2. Complete these CPRTP forms and email to Kava Lewis at KLLewis2@mdanderson.org:
 - o [Trainee Feedback Form](#)
 - o [Final Report Form](#)
 - o [Postdoc Performance Appraisal Form](#) (*Postdocs only*)

Are there any forms that my primary mentor must complete?

Yes. Your primary mentor must complete a [CPRTP Trainee Evaluation Form](#).

Will I receive a certificate of completion?

Yes. Postdoctoral fellows must complete this [Request for Certificate of Postdoctoral Fellowship Training form](#) and return it to the Academic and Visa Administration (AVA), Unit 165 (see bottom of form).

I purchased a laptop and monitor with my research expenses. Why can't I keep this equipment? It was purchased with my research funds!

- Any equipment purchased during your fellowship using grant funds are property of the Cancer Prevention Research Training Program and not the trainee. These items must be surrendered to Kava Lewis (Asset Manager) at the conclusion of your fellowship.
